| <b>DAY ONE - 23 SEPTEMBER 2015</b> |           |   |
| 1                                  | Session 1 | Intro to Disaster Types & Disaster Management                 |
| 1.1                                |           | Definition of Disaster  |
| 1.2                                |           | Characteristics of A Disaster                                 |
| 1.3                                |           | Phases of A Disaster  |
| 1.4                                |           | Types of Disasters  |
| 1.5                                |           | Implication   |
| 1.6                                |           | Relief Activities   |
| 1.7                                |           | Getting Our Focus Right                                       |
| 2                                  | Session 2 | Religious & Cultural Issues & Considerations                  |
| <b>DAY TWO - 24 SEPTEMBER 2015</b> |           |   |
| 3                                  | Session 3 | Disaster Management-Basic Considerations Part 1               |
| 3.1                                |           | How to approach disaster situations?                          |
| 3.2                                |           | Primary and secondary sources of information                  |
| 3.3                                |           | Basic assessment  |
| 3.4                                |           | Collecting data   |
| 3.5                                |           | Interpretation data   |
| 3.6                                |           | Formulating plan for response                                 |
| 4                                  | Session 4 | Disaster Management–Basic Considerations Part 2               |
| 4.1                                |           | Important sectors in disasters                                |
| 4.2                                |           | Water supply considerations                                   |
| 4.3                                |           | Nutritional assessment  |
| 4.4                                |           | What are sustainable projects?                                |
| 5                                  | Session 5 | Disaster Trauma-Psychological Issues & Interventions Part 1   |
| 5.1                                |           | Introduction to Trauma  |
| 5.2                                |           | What is Trauma?   |
| 5.3                                |           | Identifying Trauma Symptoms in Children, Adolescents & Adults |
| 5.4                                |           | How to Help?  |
| 5.5                                |           | The Importance of Cross Culture in Trauma Care                |
| 6                                  | Session 6 | Disaster Trauma-Psychological Issues & Interventions Part 2   |
| 6.1                                |           | Case Study - Role Play  |
| 6.2                                |           | The Role of Debrief - Group Therapy (Practical)               |

## TABLE OF CONTENTS

| Tag No.                                     |            | Reading  |
|---|------------|--|
| <b>DAY TWO - 24 SEPTEMBER 2015 (CONTD.)</b> |            |  |
| 7   | Session 7  | Disaster Team Functioning-Project & Trip Management Issues |
| 7.1   |            | Team dynamics  |
| 7.1.1                                       |            | Screening  |
| 7.1.2                                       |            | Team allocation /roles                                     |
